

Luka Ilic

lukailic3.contact@gmail.com | [LinkedIn](#) | [Portfolio](#)

Technical Skills

Proficient: HTML5, CSS3, JavaScript ES6+, TypeScript, React (+hooks), REST APIs, Firebase, Git/GitHub, MySQL, Redux, SASS, NPM

Familiar: Node.js, Express, TailwindCSS, MongoDB, Jest

Experience

Freelance Frontend Developer

Oct 2021 – Sep 2022

Freelance

- Engineered scalable, responsive, multi-platform, and SEO-friendly websites for multiple clients using HTML5, CSS3 (+BEM), JavaScript ES6+, and React
- Communicated business requirements with stakeholders and delivered high-quality solutions
- Connected to backend APIs through CRUD HTTP requests

Projects

NeoRecipes | [Github](#) | [Website](#)

- Developed a dynamic web application for food recipes using React, Express, and MySQL
- Created a search functionality with search filters, allowing users to refine their search results and find relevant food recipes more easily
- Allows users to add, modify, and delete food recipes from their profiles

AnimeList | [Github](#) | [Website](#)

- Fetched and stored Jikan REST API data using Axios to dynamically display a list of Anime series
- Implemented Infinite scroll that allows users to effortlessly browse large amounts of content without page navigation and creates a smooth browsing experience
- Implemented a bookmarks feature for users to save Anime series

Ultraverse | [Github](#) | [Website](#)

- Designed a clean and straightforward UI that provides simple user interaction with HTML5, CSS3 (+BEM), JavaScript US6+, and React
- Included responsive and multi-platform support to enable the website to be viewed on any platform and device
